Part Description / Number	Qty	Sale	Extended	Labor Description	Extended
Starter motor/rebuilt 12 41 1 466 093	1.00	184.50	184.50	Vehicle towed in. Customer indicates that a valet was returning the car to him and he had to turn it off because there was smoke coming from the vents.	N/C
Rubber boot 11 61 1 306 790	6.00	15.20	91.20	After that it would not crank. Check and report. Diagnostic applied to repair.	
vent hose 11 15 1 306 958	1.00	22.90	22.90	We found that the starter motor has failed.	528.00
Hose to IAC 13 41 1 310 699	1.00	51.07	51.07	We can see a burned electrical wiring connector at the starter motor, so quite possibly it failed internally. We would need to remove the plenum to access the starter. The two hoses that come out of the plenum are as hard as rocks, so we will want to replace them. Also, we can see the first plenum boot is cracked. so would anticipate the others being in the same condition. We would replace all six. We need to replace the starter with a rebuilt unit and a new electrical connector to the starter.	
fuel hose 13 31 1 722 565	1.00	37.65	37.65	Note: We were unable to set the clock and date and the radio is coded. Jason says he will take care of this himself.	
Electrical connector Part	1.00	9.75	9.75	Jason comments that there is a rumbling in the driveline.	N/C
				Technician says it is not as bad as many that have come in. We would need to remove the driveline and send it out to have a new u-joint installed and staked, new center support bearing and then balanced.	
				REGULATION (99550) TO REDUCE GREENHOUSE EMISSIONS FROM VEHICLES WITH UNDER INFLATED TIRES. THIS REGULATION REQUIRES TIRES (NOT THE SPARE) TO BE CHECKED DURING ANY AUTOMOTIVE MAINTENANCE OR REPAIR.	N/C
				IN OUT IN OUT LF <u>27</u> <u>36</u> RF <u>24</u> <u>36</u> LR <u>34</u> <u>41</u> RR <u>33</u> <u>41</u>	
				**** Recommendations **** The drive belts are cracked.
